SOUTH END DEVELOPMENT POLICY PLAN
DEMOGRAPHIC/SOCIO-ECONOMIC PROFILE

The purpose of this profile is to provide the South End Development Policy Plan's Working Group with data which will help to analyze the South End's population and economic characteristics; and to determine the demographic and socio-economic implications on future land development in the South End.

This profile includes a series of computer-generated maps that illustrate demographic data according to census tracts (indicated on the attached map). Each map also shows, in diagramatic form, the aggregate average data for Boston, and for the South End as a whole. Before reviewing this information, several points should be noted:

- This data is from the 1980 census. the BRA staff will factor the BRA 1985 mid-decade household survey into this profile in order to provide the most up-to-date picture of the South End. The 1990 census will not be available until mid-1991, which will be past the target date for the completion of this Plan. We will recommend that the BRA's Research Department complete a similar profile in 1991 using computer-generated maps of the 1990 census, and compare both profiles in order to track trends in the South End during the 1980's.

- Census tracts 703, 804 and 806 extend beyond the boundaries of the South End Urban Renewal Area, and, as a result, may skew the population characteristics in those areas. For example, Tract 703 includes Bay Village; Tracts 804 and 806 extend into Roxbury. (See the attached Census Tract Boundary Map of the South End.)

- Census tracts 704, 711, 712 and 710 cover large areas; in fact, only small sections of these areas are actually residential. Census data for the tracts reflect the characteristics of specific residential pockets. For example, Tract 704 is Castle Square; Tract 711 is primarily the Franklin House; Tract 710 is Worcester Square; and Tract 712 is primarily the Cathedral Housing Project and some residences on Union Park Street.

The following is an outline of the contents of this profile:

- o South End Census Tract Boundary Map.
